

## Environmental Policy

Uniseal is committed to manufacturing products in the most environmentally-friendly manner feasible. Best management practices such as pollution prevention, effective communication, and progressive improvements in efficiency will ensure future business and environmental sustainability. Uniseal will comply with all environmentally related legal and customer requirements.

Environmental objectives will be established and evaluated as appropriate to continue Uniseal's commitment to the environment and to promote continual improvement. Uniseal's environmental policy will be communicated to team members and to all parties working for or on behalf of Uniseal. A copy of Uniseal's Environmental policy is available to interested parties upon request.

UNISEAL is a global supplier of specialty adhesives and sealants. Our products are custom developed to help you quickly tackle your most difficult challenges.
